PLEASE NOTE: The **SIZING CHARTS** above should only be used as a guideline, as each individual foot varies in width, arch height, and bone structure. On initial fit, the sandal should **FIT SNUG**. This in turn results in a much better fit after the sandal breaks in. This is due to the foam forming to the individual foot and the straps stretching. Each pair of sandals may vary slightly, because they are all **HAND MADE AND CRAFTED WITH PRIDE**.
